

SpecsIntact Features

The Future Begins Now...

Software

Overview

SpecsIntact is an automated system for processing standard Masters used in facility construction projects worldwide. SpecsIntact provides quality assurance reports and automated functions that reduce the time required to complete project specifications.

SpecsIntact is developed and managed by the U.S. Army Corps of Engineers (USACE). The software was designed by engineers, architects, specification writers, project managers, and construction managers. The U.S. Army Corps of Engineers (USACE), the Naval Facilities Engineering Command (NAVFAC), and the Air Force Civil Engineer Command (AFCEC) have mandated SpecsIntact as their standard specifications processing system.

Masters

*The UFGS Master
is the Heart of
SpecsIntact*

The Unified Facilities Guide Specifications (UFGS) Master that is used with SpecsIntact is divided into functional divisions according to the industry standard, with each division containing related specification Sections. The key elements within the Sections are annotated using SpecsIntact's application of the Extensible Markup Language (XML).

The tagging scheme provides the intelligence that SpecsIntact uses in automatically processing these Sections and producing intuitive Quality Assurance Reports.

Masters

Unified Facilities Guide Specifications (UFGS)

Consists of 650+ Guide Specifications

Follows the industry-standard numbering scheme

Embraces the industry-standard three-part format

Automated Unified Master Reference List (UMRL) and Unified Master Submittal List (UMSL)

Incorporates Leadership in Energy and Environmental Sustainability Designs

The UFGS follows the environmental guidelines of the following organizations:

- Reliability Centered Building and Equipment Acceptance Guide (RCB&EA)
- US Federal Green Specification Guidelines Collaborating Organizations referenced within the UFGS
 - Carpet and Rug Institute (CRI)
 - Green Building Initiative (GBI)
 - Master Painters Institute (MPI)
 - NACE International (NACE)
 - Society for Protective Coatings (SSPC)
 - U.S. Green Building Council (USGBC)
 - And more...

Software Features

Explorer-style interface for easy and intuitive project and document management

- Automated Updating of the Software, UMRL, UMSL, and UFGS Master
- Supports the latest industry-standard numbering scheme and format
- Automatic Paragraph Numbering
- Tailoring for Pre-Editing
- Search and Replace functionality
- Integrated Emailing
- Automated Backup and Restore Interface
- Automated Word and PDF Publishing with integrated bookmarking
- Automated Table of Contents creation
- Automatic Specification Updating
 - Address Section (01 42 00)
 - Submittal Section (01 33 00)
 - Reference Publications
- Submittal Register
 - Tabular Submittal Listing for easier Construction Management
- Copy-and-paste or drag-and-drop Sections in SpecsIntact or into other Windows Applications
- Integrated with Windows Explorer to easily access Working Directories
- Export Submittal Register, Tailoring Options List, and Search results to Web Browser (HTML)
- Supplemental Address List for local References
- Merge PDFs for SpecsIntact bid packages using the Package Builder tool
- Assurance Reports with built-in hyperlinking

...and much more

Custom Editor for Editing Specifications

- Modern New Look and Design
 - Enhanced Customizable Toolbar and Tagsbar
 - Customizable Application Look
 - Navigator with Integrated Editing Capabilities
- Switch for Automatic Paragraph Numbering Formats - Numeric or Alphanumeric
- Submittal Wizard for Managing Submittals and Submittal Checking
- Reference Wizard for Managing References and Reference Checking
- Section Reference Wizard
- Automated Bracket Replacement
- Revisions / Redline Feature
- Tailoring for Pre-Editing
- Automated Multi-Level Ordered Lists
- Vertically and Horizontally Tiled Windows
- Formatted Tables - Fully integrated editing

User Support and Website Assistance

- Professional Technical Support
- Extensive Support & Help Center
 - eLearning modules - self-directed video learning
 - Installation Guide
 - User Guide
- Web-based Help
 - Frequently Asked Questions
 - Troubleshooting Tips
